

ONE YEAR LIMITED WARRANTY

Purchase Date: _____ ITEM# (above UPC code) _____

**This Limited Warranty is effective upon purchase date.
Please fill out the separate registration card and mail.**

1. Lentek International warrants this product to be free of manufacturing defects. Should any such defect develop or become evident within ONE year from the date of purchase, Lentek International will replace the entire product or, at its option, repair or replace the defective part(s) without charge.

To Return Unit:

2. Securely pack the entire unit. Be sure the carton clearly identifies the sender by name and address. Attach a letter or card describing the nature of the defect. The original receipt of the purchase must be included in the returned package to be eligible for warranty coverage.
3. This warranty is void if the damage or malfunction is due to abuse or failure to operate the product in accordance with the instructions and/or on the recommended electrical current.

VeriSEAL vacuum containers

Special Notes

1. In order to secure proper vacuum storage, do not fill over the 80% capacity level.
2. The container is NOT microwave, dishwasher or freezer safe.
3. Allow fine powder to settle before pumping the air out of the container. This will prevent the powder from interfering with the pumping mechanism.
4. A change in air pressure, temperature, or an excessive storage time will change the container pressure and reduce the vacuum condition. When this happens, the vacuum indicator will rise slightly (indicating air has entered the container). Simply pull the air pump handle until the button is again flush with the top of the lid to restore the vacuum.
5. Any crack or leak will result in non-vacuum storage.
6. To avoid dropping the container, hold the bottom portion of the container instead of the lid.

Cleaning

1. Clean the lid by wiping with a wet cloth. The container can be washed in soap and water.
2. a. Take the dust covers and filter sponges out from inside of the lid.
b. Clean, allow for them to dry.
c. Reassemble.

WARNING!
Not dishwasher safe.

Applications

VeriSEAL vacuum containers are ideal for any food or precious articles intended to avoid dampness and decay. These units will preserve the freshness, flavor, color and nutrients of food. Refrigerator storage is allowed.

- **Fresh Food**
fresh vegetables, fruit, fish, etc.
- **Dried Food**
cookies, candy, chocolate, nuts, chips, dried fruit, tea, pasta, cereal, etc.
- **Medicine**
protects medicine from damage due to moisture and oxygen.
- **Marinating Meat/Vegetables**
shortens time required for marinating.
- **Precious Articles**
cameras, lenses, film, precious stones, jewelry, computer disks, scientific instruments, etc.

WARNING!
Not microwave or freezer safe.

Instructions For Use

Round VeriSEAL vacuum containers

To Store:

1
Flip up the small lid. Place one hand on the lid, use the other hand to pull out the air pump handle and pump.

2
Continue pumping until the Vacuum Indicator becomes level with container lid.

3
Set the storage date on the calendar lid.

To Open:

1. Press release button until the vacuum indicator goes back up to its original position.
2. Simply open the container.

Square VeriSEAL vacuum containers

To Store:

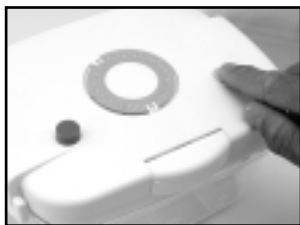

1
Dividers can be installed in the container for various items.

2
Flip up the small lid. Place one hand on the lid, use the other hand to pull out the air pump handle and pump. Continue pumping until the Vacuum Indicator becomes level with container lid.

To Open:

1. Press release button until the vacuum indicator goes back up to its original position.
2. Simply open the container.

3
Set the storage date on the calendar lid. The special lock design makes for worry-free stacking and also saves storage space.
